Applicant : Christoph Binkert, et al.  
Issued : October 14, 2008  
For : THIAZOLIDIN-4-ONE DERIVATIVES  
Docket No. : AC-44-US

Re: Request for Certificate of Correction

Consideration has been given your request for reconsideration of certificate of correction for the above-identified patent under the provisions of Rule 1.323.

Respecting the alleged errors in the specification. Upon reconsideration and the support identified by applicant on page 20, lines 7-10 of the instant specification in the request for reconsideration filed March 25, 2011, the change to Example 86 in Column 77, lines 40-45, is approved.

However, the entire Column 97 and Column 98, lines 1-39 should not be deleted. Certificate of Correction is not proper for this type of change to the patent nor is Certificate of Correction proper for the change of benefit claim from a "371" to a "CIP of PCT/EP04/12953" as suggested by applicant in the request for reconsideration filed March 25, 2011 on page 3 of 4, second paragraph. Therefore, no correction is in order for this matter.

In view of the foregoing, your request for certificate of correction is hereby denied.

A certificate of correction will be issued to correct the remaining errors in your request.

Further correspondence concerning this matter should be filed and directed to Decisions and Certificates of Correction Branch.
